

1st Primary School of Nea Ionia Attica Greece

3rd Grade

Teacher: Vasiliki Strataki

Let's be superheroes!

Climate Crisis and CO2

Lost Energy in the school area

Renewable energy sources

- We find energy loss at school using worksheets.
- We are creating our own Climate Crisis information book.
- Experiment: Construction of a solar oven from a pizza box. Playing with the solar panel for lighting.
- We promote alternative thinking.
- We create new innovation ideas that help the earth.
- We present our ideas
- We write picture poems about our great love, our great home, our earth.
- We read books about Climate Change.
- We draw the cape of the superhero.
- We create the cap of renewable energy sources: Sun, Wind, Wave-Water
- We invite writers to the school and get to know their work firsthand.
- We sign with our fingerprint a pledge to save the planet.
- We place positive thoughts about the beauty of the planet in the gratitude jar.

We become the superheroes of our planet! <https://youtu.be/1tBwj0sfsmo?t=69>
